Wall mounted power block with el. motor and with a “Diablo” roller that can be from 1.000 - 2.000 mm. Designed for mounting on the wall outside the net loft and for taking the net into the net loft. Special closed construction that means that opening into the net loft is reduced to an absolute minimum. Delivered shot blasted, metallized and painted for maximum rust protection.

All blocks are delivered with heavy duty el. motor or hyd. motor. Blocks are controlled by radio control on all functions. Option with 2 speed el. Motor. Option with electric operated faster no beam (controlled from radio control).
